

# Remember when you got your chores done all at once so you could go play?

**Trip chaining** Same idea, only you'll save the air in addition to time.

Chances are, you're already doing some trip chaining—combining errands into one trip. It's a great way to get things done so you have more time for the fun stuff. Plus, it helps reduce traffic congestion and pollution. When you first start a car after it's been sitting for more than an hour, it pollutes up to five times more than when the engine's warm.

Trip chaining keeps your engine warm and ready to go. So keep it up because—

*It all adds up to cleaner air*

Drop off the kids  
Run by the bank  
Pick up dinner  
Save the air

## It's amazing what a mom can accomplish in one trip

You don't have to be Super Mom to get everything done and contribute to a better world. Just continue doing something you're already doing: trip chaining. That's when you combine your errands into one sensible trip. It can save time, reduce traffic congestion and reduce pollution. Because when you trip chain, your catalytic converter stays warm and helps your vehicle burn fuel more efficiently. So keep it up because—

*It all adds up to cleaner air*
